Basic Data (excerpted from primary sources):

This mine is listed in 1929 as a "new mine," and it likely began operations in that year. Although the last reported year for the mine is 1934, no information about whether or not the mine had closed or information indicating that the mine was "not in operation" was noted in 1934, and the mine may have continued operations beyond 1934.

Descriptive information pertaining to this mine is included in:

[source:year(pages)]

None.

Notes:

Harrington (1934a) indicates that the Taylor Mine was located at T130N, R94W, Section 3; however, no part-section is provided. Therefore, it is not known if the Taylor Mine was located at Planning Unit 020, AML location 184 (T130N, R94W, Section 3, SW), at Planning Unit 020, AML location 265 (T130N, R94W, Section 3, SW, NW)--which is included in Planning Unit 020, AML location 184--or if the mine was situated in some other portion of Section 3.

Taylor/Chamberlain Mine (continued)

It should be noted that CMID reports link the above mine names; however, Harrington (1934a) lists the Chamberlain Mine at T121N, R95W, Section 1 (likely incorrect since this location is situated in South Dakota), and Harrington (1934a) lists the Taylor Mine at T130N, R94W, Section 3. No information was noted that clarified this apparent discrepancy.
