Basic Data (excerpted from primary sources):

This mine is not listed as a new mine in 1923, and it may have been in operation prior to that time. The mine was operated and reported continuously from 1923 through 1946. Since no reports were noted for this mine following 1946, it is assumed that the mine ceased operations at about that time; however, it is possible that the mine was operated but not reported or that it was operated and reported under some other name following 1946.

Descriptive information pertaining to this mine is included in:
