Cultural Resource Site Number: Not formally recorded

Basic Data (excerpted from primary sources):

This mine is not listed as a new mine in the 1918 SEBR, and it may have been in operation prior to that time. The mine apparently was a small mine, that supplied a local demand. The mine is listed as "not in operation" in 1921; since no further listings were noted for this mine, it is assumed that the mine ceased operation at about that time. However, it is possible that the mine was operated and not reported or that it was operated and reported under some other name following 1921.

Descriptive information pertaining to this mine is included in:

CMID:1921 (28)

SEBR:1918 (139)

Notes:

Leonard et al. (1925) note that slope mining was conducted at T161N, R102W, Section 14. It is not known whether the Mathieson Coal Mine was one of these small mines; however, it does appear that additional, currently unnamed, mines existed in this section.
