

Near Livona, which is on the river, twelve miles south of Bismarck, some mining has been done. In Township 135, Range 75, the C. H. Edick mine has developed a seam two and one-half feet thick. The outcrops occurred near the bottom of a coulee, and the lignite is won by drifting. At the mine the

coal sells for \$2.75 a ton, a price which shows the peculiar advantage in location. Southwest of Williamsport, in Township 135, Range 78, the Jesse E. Brindle mine at one time took coal from a two-foot vein.
