Basic Data (excerpted from primary sources):

This mine is not listed as a new mine in 1921, and it may have been in operation prior to that time. The mine reported continuously from 1921 through 1934, except in 1924, for which year no report was noted. It appears the mine may have begun as a surface mine and then been operated as an underground (slope and drift) mine. This mine is not listed as closed or not operating in 1934; however, no listings were noted for the mine following 1934. It is not known if the mine ceased operations following 1934, or if it ceased reporting at about that time.

Descriptive information pertaining to this mine is included in:

Notes:

Although no specific information was noted about the owner of this mine with the exception of the years 1924 and 1925, since I. Loe is listed as the superintendent of the mine for all years the mine was reported and I. Loe is the individual listed as mine owner in 1924 and 1925 WCB Maps, it is likely that I. Loe maintained ownership of this mine for all years in which it was operated.
