Basic Data (excerpted from primary sources):

This mine is not listed as a new mine in 1931, and it may have been in operation prior to that time. The mine is listed as not operating in 1942. Since no listings were noted for the mine following 1942, it is possible that the mine ceased operation at about that time; however, it may have continued to operate and ceased to report following 1942.

Descriptive information pertaining to this mine is included in:

[source:year(pages) ]

None

Notes:

Harrington (1934a) indicates that the Weinberger mine was located in T135N, R94W, Section 13; however, Harrington (1934a) provides no part section. Therefore, it is not definite that the Weinberger mine was located at this Planning Unit and AML location (T135N, R94W, Section 13, NW, SW), since it may have been located in some other portion of Section 13.
