Basic Data (excerpted from primary sources):

This mine is not listed as new in 1920, and it may have been in operation prior to that time. The mine was operated as a drift mine until 1936, when a new slope was driven. Another new slope was driven in 1938, and the mine is listed as a drift mine in 1939 and 1940. The mine is listed as "not operating" in 1940, and it is assumed that the mine ceased operations at about that time.
