Basic Data (excerpted from primary sources):

This mine is not listed as a new mine in 1924, and it may have been in operation prior to that time. The mine is reported continuously from 1924 through 1943, when the mine is listed as not operating. No listings were noted for the mine following 1943; however, it is not known if the mine ceased operations at that time, or if the mine was operated but not reported following 1943. Information noted on WCB maps indicates that this mine began operations in Section 17, and had moved into Section 20 at least by 1938, but possibly earlier.
