Basic Data (excerpted from primary sources):

The Gunder & Itrick mine is listed as a new mine in 1927. The mine is reported in 1927 and 1928, and in 1929 the CMID indicates only "not reported." No listing was noted for the mine in 1930, and from 1931 through 1944, listings were noted for the Itrick Coal Mine. The Itrick Coal Mine is not listed as a new mine in 1931, and it has been assumed that the Gunder & Itrick mine and the Itrick mine are the same mine. No listings were noted for the Itrick mine following 1944; it is not known if the mine ceased operations in about 1945, or if the mine was operated but not reported following 1944.

Descriptive information pertaining to this mine is included in:

None

Note:

Harrington (1934) indicates that this mine was located in T138N, R85W, Section 8; however Harrington (1934) does not provide a part section. Therefore, it is not known if this mine was located at this Planning Unit and AML location (T138N, R85W, Section 8, NW), or if it was situated in some other portion of Section 8.

It is not known definitely that the Gunder & Itrick Mine and the Itrick Coal Mine were the same mine at the same location.

The Just Coal Mine also may be located at this Planning Unit and AML location.
