Basic Data (excerpted from primary sources):

This mine is not listed as a new mine in 1930, and it may have been in operation prior to that time. The mine is listed from 1930 through 1932, and from 1935 through 1943, when it is listed as not operating. Although no listing was noted for 1934, the mine apparently was operated, since Harrington (1934) indicates that the mine produced 421 tons of coal in that year. No listings were noted following 1943; it is not known if the mine ceased operations following 1936, if the mine was operated and not reported, or if the mine was operated and reported under a different name following 1936.

Descriptive information pertaining to this mine is included in:

WCB Map:1937

Notes:

It should be noted that although Harrington (1934) lists the Anderson Coal Mine in Burke County, apparently because the post office listed for the Anderson Coal Mine is Powers Lake, which is situated in Burke County.

The Gamble/Blickre Coal Mine, New Coal Mine, Garber Coal Mine, and Leef Coal Mine also are located at this Planning Unit and AML location.
