Basic Data (excerpted from primary sources):

Wilder (1902) indicates that several hundred tons were mined (by strip--surface--mining) every winter for local use. However, it does not appear that a mine name or mine names were designated for the strip mine (or mines); therefore, no SEBR listings could be related to any mines at this location and no additional data was noted in association with the legal location identified by this Planning Unit and AML location.

Descriptive information pertaining to this mine is included in:

Notes:

Wilder (1902) indicates that strip mining was conducted at T139N, R98W, Section 16; however, Wilder (1902) does not provide a part section. Therefore, it is not known if this strip mining was conducted at this Planning Unit and AML location (T139N, R98W, Section 16, N1/2, N1/2), or if the stripping was conducted in some other portion(s) of Section 16.
