

**WARD COUNTY**

Planning Unit 103: AML Printout #340: T152N, R81W, Section 29, NE, N1/2

Additional Legal Location: No part section

Name:	Owner:
Hanchette Mine	No data

Category: No data

Type: No data

Overburden:	Coal Seam:	Thickness Mined:	Source:
No data	No data	No data	Not applicable

Cultural Resource Site Number: Not formally recorded

Basic Data (excerpted from primary sources):

Wilder (1902) indicates that the Hanchette Mine was located at T152N, R81W, Section 29, and that from two to five persons were employed at the mine during the summer and winter. Output of the mine during the winter was from 10 to 20 tons [apparently per day], and "coal was removed here for several years." However, it is not known when the Hanchette Mine began operation. Additionally, although no listings were noted for this mine in SEBRs (which could indicate that the mine had ceased to operate by 1908), it is possible that the mine was operated but not reported following 1908. Therefore, it is not known when this mine ceased to be operated.

Descriptive information pertaining to this mine is included in:

[source:year (pages) ]

Wilder:1902(132)

**Notes:**

Wilder (1902) does not provide a part section for the Hanchette Mine, therefore, it is not known if this mine was located at this Planning Unit and AML location (T152N, R81W, Section 29, NE, N1/2), or if it was situated in some other portion of Section 29.

The Buckholz, New Murray, and Wyman/Wagner/Nelson coal mines also are located and the Faul Coal Mine also may be located at this Planning Unit and AML location.
