Basic Data (excerpted from primary sources):

This mine is not listed as a new mine in 1923, and it may have been in operation prior to that time. The mine was operated and reported continuously from 1923 through 1928. The mine apparently is listed closed in 1929. It should be noted that the 1929 listing is for a Longre Coal Mine; John Longre became the superintendent of the Kamp Coal Mine in 1928. However, no information was noted that definitely related the Kamp Coal Mine with the Longre Coal mine; the assumption was made because of the superintendent of the Kamp Coal Mine in 1928.

Descriptive information pertaining to this mine is included in:
