10-15 ft.	11 ft.	No data	CMID:1926

Cultural Resource Site Number: Not formally recorded

Basic Data (excerpted from primary sources):

This mine is not listed as a new mine in 1921, and it may have been in operation prior to that time. The mine was operated as an underground mine and as a strip mine, apparently both separately and simultaneously. The 1927 CMID indicates that the mine had "Caved" and the 1928 CMID indicates that the mine was "Closed." It appears likely that the mine was not operated following 1927.

Descriptive information pertaining to this mine is included in:
