Basic Data (excerpted from primary sources):

This mine is not listed as a new mine in 1923, and it may have been in operation prior to that time. The mine was operated and reported from 1923 through 1935, when it is listed as not operating. The mine was operated as a drift mine at least from 1925 through 1927, and the 1926 and 1927 CMIDs indicate that operators of this mine were robbing back the main entry pillar. From 1928 through 1935, the mine was operated as a slope mine, indicating that a new entry was driven in about 1928. No listings were noted for this mine following 1935, and it appears likely that the mine ceased to be operated following that year.
