Basic Data (excerpted from primary sources):

This mine is not listed as a new mine in 1924; however, the 1924 CMID indicates that the Black Bear Mine "should be added to the Fifth Annual [1923] Report," and it is possible that the mine was new in about 1923. This mine was operated and reported from 1925 through 1932; the 1933 and 1934 CMIDs list this mine, but no production figures are provided. No listings were noted following 1934; it is not known if the mine ceased to be operated, if it was operated but not reported, or if it was operated and reported under some other name following 1934.
