Frantz (aka Frants) Franson

Category: No data

Type: Underground, slope

Overburden:	Coal Seam:	Thickness Mined:	Source:
No data	No data	No data	Not applicable

Cultural Resource Site Number: Not formally recorded

Basic Data (excerpted from primary sources):

A 1924 WCB map indicates that the Franson Mine was located at T155N, R95W, Section 9, SW; mine related features included an air shaft and a blacksmith shop. A listing was noted for this mine in the 1923 CMID, which indicated that the mine was a slope mine; however, no production figures were listed. This mine is not listed as a new mine in 1923, and it may have been in operation prior to that time. No listings were noted for the mine following that in the 1923 CMID, although the WCB map illustrating the mine is dated 1924. It is not known if the mine ceased to be operated, if it was operated but not reported, or if it was operated and reported under some other name following 1923.

Descriptive information pertaining to this mine is included in:
