Basic Data (excerpted from primary sources]:

This mine is listed as a new mine in 1933. In 1937, it is reported that a new slope is to be opened. In 1940, the mine is listed as not operating; since no listings were noted for this mine following 1940, it is assumed that the mine ceased operations in about that year. However, it is possible that the mine continued to be operated but was not reported or that it was operated and reported under some other name following 1940.

Descriptive information pertaining to this mine is included in:
