Basic Data (excerpted from primary sources):

This mine is listed as a new mine in 1926. The 1943 CMID lists the mine's production statistics under the name "Reese Coal Mine" and the Summary of Inspection indicates that the Rue Coal Mine was "formerly the Reese mine." The mine is listed only as the Reese Coal Mine from 1944 until 1948, when the Waggoner Coal mine is listed as "previously Reese Coal Mine." No information was noted that definitely relates the Waggoner Coal mine to the Regent Coal Mine; however, the superintendent of the Waggoner Coal mine (1948) is Robert Waggoner and the superintendent of the Regent Coal mine (from 1949 through 1962) also is Robert Waggoner. Additionally, the Waggoner Coal Mine is listed only in 1948 and it is not listed as closed or not operating in or after 1948, and the Regent Coal Mine is not listed as a new mine in 1949 nor is it listed prior to 1949. Therefore, it has been assumed that the Waggoner Coal mine and Regent Coal Mine are the same mine.

Descriptive information pertaining to this mine is included in:
