Basic Data (excerpted from primary sources):

This mine is listed as a new mine in 1926; however, Leonard et al. (1925) include a Kouba Mine which appears to be at this legal location and apparently was in operation prior to 1926. The mine apparently was operated as an underground mine in 1926, and a surface mine in 1927, as an underground mine from 1929 through 1934, and as a surface mine from 1935 through 1946. The mine is not listed as closed or not operating in 1946, but no listings were noted for the mine following 1936. It is not known if this mine ceased operations in 1946 or if it ceased reporting at about that time.
