Basic Data (excerpted from primary sources):

The Kaelberer Coal Mine is listed as a new mine in 1951. The mine was operated and reported continuously from 1951 through 1971. No listings were noted following 1971, and it is likely that the mine ceased operations at about that time.

Descriptive information pertaining to this mine is included in:

[source:year(pages)]

WCB Map:1947 (possible)

Notes:

The 1947 WCB map for a J.E. Koelberer Mine indicates, that the mine was located at T135N, R85W, Section 9; however, the map does not provide a part section. Therefore, should the map refer to the Kaelberer mine discussed herein (see second note), it is not known if this mine was located at this Planning Unit and AML location (T138N, R85W, Section 9, SW, NE), or if it was situated in some other portion of Section 9.

The Joersz/Rocky Ridge coal mine also may be located at this Planning Unit and AML location.

A WCB map was noted for a J.E. Koelberer Coal Mine; this map is dated 1947. The J.E. Koelberer Coal Mine, according to this map, also may be located at this Planning Unit and AML location; however, no listings were noted for a J.E. Koelberer Coal Mine in 1947--the

Kaelberer Mine (continued)

first listing noted (and it indicates that the mine is a new mine) is from 1951. John E. Kaelberer is listed as superintendent of the Rock (or Rocky) Ridge mine in 1944 and 1945; it may be that the WCB map refers to the Rock (or Rocky) Ridge mine--which may have been operated beyond 1945 but not reported--or it may be that the WCB map refers to the Kaelberer Coal Mine. No information was noted to clarify this discrepancy; however, information was compiled about the Kaelberer Coal Mine, since it may be located at this Planning Unit and AML location.
