

*Silver Vein Coal Mine*, Township 160, Range 88, Section 32.— This mine is located on the opposite side of the coulee from the Kenmare Hard Coal mine, with its entrance facing the lake. An air shaft was being made at the time the mine was visited. From three to twenty miners are employed, and the output varies from five tons in summer to fifty tons per -day in winter. This mine, as well as the others in the coulee, are so conveniently located with reference to roads that the properties should prove to be very valuable. Mr. Swartz, the operator of the mine, owns 167 acres here.
