Basic Data (excerpted from primary sources):

This mine is listed as a new mine in 1929. Although no information was noted that the name of the mine changed from Oland to Drangstad in 1931, the superintendent of the Drangstad mine in 1932 is the same as the superintendent of the Oland mine in 1931. Additionally, although the mine continued to be listed as the Drangstad mine from 1932 through 1938, the 1934 CMID Summary of Inspection indicates that the Oland Coal mine was formerly the Drangstad Coal Mine. The mine continued to operated through 1938, when it is listed as not operating. No listings were noted for the mine following 1938, and it is likely that the mine ceased to be operated following that year. However, it also is possible that the mine was operated but not reported or that it was operated and reported under some other name following 1938.

Descriptive information pertaining to this mine is included in:

None

Notes:

Harrington (1934a) indicates that this mine was located at T159N, R102w, Section 24; however, no part section is provided. Therefore, it is not known if this mine was located at this Planning Unit and AML location (T159N, R102W, Section 24, NE), or if it was situated in some other portion of Section 24.

The Haugen Coal Mine and Rochwhite-Lysgaard Coal Mine also are located at this Planning Unit and AML location.
